

SAMPLE PATHOLOGY LABS

Name : Mr. Test Rao
Age / Gender : 41 Year(s)/ Male
Contact No. : +910000000000

VID No. : 260000000001
PID No. : TP0000123
Referred by : SELF

Investigation	Observed Value	Unit	Biological Reference Interval
LIPID PROFILE			
Cholesterol - Total (Method: Cholesterol Oxidase)	175	mg/dL	<200 - Desirable 200-239 - Borderline risk >240 - High risk
Cholesterol - HDL (Method: Enzymatic Colorimetric)	52	mg/dL	< 40 : Low 40 - 60 : Optimal > 60 : Desirable
Cholesterol - LDL (Method: Calculated)	112	mg/dL	< 100 : Normal 100 - 129 : Desirable 130 - 159 : Borderline-High
Vitamin D Total (D2+D3 Fractionated) (Method: Chemiluminescence)	25.4	ng/mL	Deficiency : < 20 Insufficiency : 20-29 Optimum Level : 30-80
HEMATOLOGY			
Hemoglobin (Method: Photometric)	17.2	gms%	13.0-17.0
Erythrocyte (RBC) Count	5.50	mill/cu.mm	4.4-6.0
Total Leucocytes Count (TLC)	6,700	cells/cu.mm	4300-10300
Platelet count	233	10 [^] 3 / µl	140-440
RBC Morphology			
Remark	Normocytic Normochromic		

Note: serum bilirubin concentrations greater than 17 mg/dl may be pathologic.

Investigation	Observed Value	Unit	Biological Reference Interval
HBsAg Screening (Serum, ECLIA)	Non Reactive,0.26	COI	Non Reactive: < 0.90 Reactive: >= 1.0
Blood group (ABO typing)	O		
Apolipoproteins B/A1			
Apolipoprotein B/A1 Ratio	1.23		0.35-1.0
HORMONES			
FSH (Follicle Stimulating Hormone)	1.85	mIU/mL	1.4-15.4
LH (Luteinizing Hormone)	4.56	mIU/mL	1.7-8.6
Routine Examination Profile - Urine			
MICROSCOPIC EXAMINATION			
Red blood cells	12	/hpf	0-2
Casts - Pathological	0.0	/hpf	0-0.34
CRY - Uric acid	0.0		0-1.36
